PACKERS GAINING  
CONTROL OF ALL  
IMPORTANT FOODWill Dominate Unless  
Restrained, Federal  
Commission Says.

By Associated Press Leased Wire

Washington, July 11.—An approaching packer domination of all important foods in the United States and an international control of meat products with foreign companies seems a certainty unless fundamental action is taken to prevent it, the Federal Trade commission declared today in part one of its report to President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report, "must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-product of the industries linked therewith. The meat packer control of other foods will not require long in developing."

## Illegal Methods Prevail

Declaring "the history of the packers' growth is interwoven with illegal commissions, rebates and with undisclosed control of corporations," the report urged the importance of full publicity of corporate ownership for all industries.

"As to devices for securing control, there does not exist adequate law," the report said. "In its absence unfair competition may run its course to the goal of monopoly and accomplish the ruin of competitors without the secret ownership being suspected and consequently without complaint to the commission or investigation of facts. The competitor is in jeopardy so long as he has not the knowledge of true ownership and the public is entitled to such knowledge."

Control 574 Companies  
Alleging that the "big five" packers—Swift & Co., Armour & Co., Wilson & Co., Morris & Co., and the Cudahy company jointly or separately wield controlling interest in 574 companies, minority interest in 95 others and undetermined interest in 93—a total of 762 companies—and that they produce or deal in some 775 commodities, largely food products, the report gives this picture of growing packer invasion into related and unrelated industries:

"In addition to meat foods, they produce or deal in such diverse commodities as fresh tomatoes and banana strings,"

Plea to Argo Heads

By Associated Press Leased Wire

Chicago, Ill., July 11.—Heads of the various striking units at the Corn Products Refining company at Argo, where a riot on Tuesday resulted in the death of three strikers and the wounding of a score of others, expected to formulate plans today for getting their pleas before the chiefs of the company.

F. M. Sayre, superintendent of the plant, stated today that in the last two days upward of 200 men had returned to work and that he expected the steam fitters would be back on their jobs today. "Union officials disputed this statement, saying the men reported as going back still were on strike and that the steam fitters were under an agreement not to return until the strike was settled."

FARRAND DECIDED NO  
AGREEMENT FOR SALE

Judge Farrand, sitting in the Circuit court, yesterday afternoon decided the Bennett vs. Harper case in favor of Mr. Harper. The suit was the result of an alleged verbal agreement regarding the sale of 40 acres of land near the Hugh Bennett farm. The land was recently sold by Mr. Harper to Hugh Bennett, whereupon Sam Bennett claimed he had made a verbal agreement with Harper some time ago for the purchase of the tract. After hearing all the evidence Judge Farrand held there was no verbal agreement, and therefore the transaction between Harper and Hugh Bennett stands.

Gen. March Says U. S.  
Could Declare Food  
Surplus in February

By Associated Press Leased Wire

Washington, July 11.—General March, chief of staff of the army, told a house sub-committee on war expenditures today that the war department's declaration of surplus food stocks could have been made in February instead of May and that on July 8 the declared surplus of foodstuffs amounted to \$121,100,000.

Chairman Reavis in questioning the general contended that delay in declaring the surplus had resulted in great loss to the government and had deprived the public of foods for which there was great demand.

In a statement filed by General March of the surplus of food stock was given as follows: Corn beef, \$24,000,000; bacon, \$23,600,000; roast beef \$20,500,000; fresh frozen beef and poultry \$20,000,000; corn beef hash, \$10,000,000; canned vegetables \$23,000,000.

By Associated Press Leased Wire

St. Johns, N. F., July 11.—The naval wireless station here reported speaking the R-34 at 5:08 a. m. today. It failed to get her exact position, but indications were that the dirigible was near the Azores.

## LONDON HEARS RADIO.

By Associated Press Leased Wire

London, Eng., July 11.—The British dirigible R-34 was in direct touch by wireless with the Clifton station at 4 o'clock this morning, Greenwich mean time. By Associated Press Leased Wire

New York, July 11.—The R-34 was estimated to be more than one-half way across the Atlantic at 9 a. m. today although official advices regarding the dirigible's position were lacking. At 4 a. m. HOMES OF TWO  
PASTORS WERE  
HIT BY BOLTSLightning Aimed at Par-  
sonages — Barns  
Were Burned.

The parsonage of the Grace Evangelical church on East Chamberlain street was struck by lightning in the storm of Wednesday evening. The casing and glass of a window in the attic were shattered and the electric lights were put out of commission. Mrs. Unangst, the pastor's wife, saw fire coming out of the sink, but upon examination nothing was found to be on fire about the house. The pastor, Rev. C. G. Unangst, was away at the time attending a business meeting of the Oakdale campmeeting directors.

Another pastor's residence, that of Rev. S. A. Zimbeck, also suffered from the freaks of lightning. A tree near the house was struck, the bolt passing into the house, tearing off some corner boards and shattering the telephone.

Several barns in the vicinity of Sterling, in addition to that on the George Schuler farm, mention of which was made in last evening's Telegraph, were destroyed by fire as the result of the storm.

On the Del Gould farm five miles southwest of Coleta a large barn, the mow of which was full of hay, a corn crib containing 1,200 bushels of corn, and the granary, containing 150 bushels of barley and oats were burned, and two horses were killed.

An 11-year-old boy, alone on the Frank Zimbeck farm six miles south of Rock Falls, managed to get two horses out of the large barn on the farm when it was struck by lightning and burned; but was unable to save another fine horse, a cow and a calf which were in the building. The barn with all its contents was destroyed by the fire, the loss being about \$2,500.

MEXICAN AFFAIR  
WILL BE PROBED  
BY PRES. WILSONConfers with Acting  
Secretary Polk  
During Day.

By Associated Press Leased Wire

Washington, July 11.—President Wilson made an unexpected call on Acting Secretary Polk today at the state department. The president carried with him a number of papers and it was understood that the Mexican question was among the first he wished to consider.

The president remained in earnest conversation with Mr. Polk for more than an hour. The under-secretary of state is to go to Paris to succeed Secretary Lansing on the American peace delegation and it was said that the president had acquainted him with the situation there.

After leaving Mr. Polk's office the president walked down the corridor to the office of Secretary Daniels, where he went into conference with the head of the navy department. Many employees in the state and navy building who were out for lunch, applauded the president.

## CONSIDERS APPROPRIATIONS

By Associated Press Leased Wire

Washington, July 11.—President Wilson still had before him today appropriation bills passed recently by congress and it seemed doubtful whether any of them would be signed this week. The president was carrying appropriations of more than \$2,000,000,000 derived from the treasury.

It was indicated at the white house that the president was devoting considerable attention to the rider on the agricultural bill repealing the daylight saving law. So far as could be ascertained the president's mind still was open.

## Ready for Senate Body

No appointments for Mr. Wilson had been made at the white house this forenoon. However, the president was holding himself in readiness to meet the senate foreign relations committee informally or in formal session and also to confer with senators who might desire to discuss the peace treaty.

It was indicated that the president has not yet begun preparation of the address to be delivered to the senate, when he presents the treaty with France by which the United States would go to that republic and in case of unprovoked attack by Germany.

Just when the treaty would be submitted seemed uncertain but it was considered likely that this would be done before Mr. Wilson started on his tour of the country.

Itinerary Incomplete  
The president's itinerary for his "swing around the circle" remained uncompleted today. It was understood that several itineraries had been suggested.

Accompanied by Mrs. Wilson, the president spent more than an hour this forenoon on the golf links at a country club near Washington. Returning to the white house at 11 o'clock, he went immediately to his study and again attacked the mass of official business which awaited him upon his arrival from Paris.

The president has mapped out a definite program and it was said this would be rigidly adhered to until he starts on his speaking tour. On the advice of his personal physician, Rear Admiral Grayson, the president will go to the golf links every day for exercise if possible.

Mr. Wilson was said to be in excellent health, but his physician deems it advisable that he spend much time in the open in preparation for his vigorous speaking tour.

NEW LAW CONTROLS  
SALE OF BAD EGGS

Under a new bill enacted by the last General Assembly, which became effective July 1, the state assumes more rigid control over the sale of eggs, thus preventing imposition on the people by egg dealers. The bill provides that licenses begin November 1, 1919, and are renewable annually thereafter. All dealers who buy from the producers and sell to other merchants or dealers, or for storage, must take out licenses for \$1.00. All other dealers who buy or sell eggs from other merchants or dealers or hucksters, even if they also buy from producers, shall take out licenses known as Class 2, for which they shall pay \$5.00 annually. All eggs must be candled by the first receivers and they shall pay only for the good eggs. The law also provides for an egg candling slip to be placed in every case.

BY FORD FAMILYEdsel Ford is Equal  
Partner with His  
Father in Firm.

By Associated Press Leased Wire

Detroit, Mich., July 11.—Reorganization of the Ford Motor company is being completed, whereby Edsel B. Ford, 25 year old president of the company, becomes with the exception of one other stockholder, the sole partner with his father, Henry Ford, in the corporation. Frank L. Klingensmith, vice president and general manager of the company, announced today that purchase had been arranged of all the minority stock excepting a block being held by James Couzens, millionaire mayor of Detroit, and former vice president of the company.

It was estimated in financial circles that the amount involved in the purchase would total close to \$100,000,000. Up to the present time Henry Ford has held 58 1/2 per cent of the Ford Motor stock. The minority stock bought included that of John F. and Horace E. Dodge, heads of the Dodge Motor company.

## NO NEW COMPANY PLANNED

By Associated Press Leased Wire

Mount Clemens, Mich., July 11.—Edsel Ford, president of the Ford Motor company, stated that the new stock purchase means that there will be no new automobile company formed as had been planned by the Ford family, and announced in California, last March.

Wages, he said, would be increased from time to time, but he declined to confirm Mr. Ford's report that a \$7 minimum would be put in effect soon. He also declined to state the price paid for the minority stock. The Ford family now hold 89 per cent.

Corn Products Will  
Dismiss Non-English  
Speaking Employees

Chicago, July 11.—F. M. Sayre, superintendent of the Corn Products Refining company's plant at Argo, Ill., declared today that one of the results of the strike, in which three were killed and a score seriously wounded, would be the elimination in the future of all non-English speaking employees from the plant.

This will mean the dropping of the names of about 700 men and women strikers from the rolls when the plant re-opens.

Officials of the company declare that the strike was caused by foreign language I. W. W. agitators and they desire to prevent a repetition of the trouble.

The plant is still under guard of 200 army deputy sheriffs and special policemen and quiet prevails throughout the village today.

Upon leaving the white house Mrs. Mooney went to the department of labor to see Secretary Wilson.

Nebraska Wheat Crop  
is Cut to 89 Percent

By Associated Press Leased Wire

Lincoln, Neb., July 11.—Nebraska's wheat crop will not meet expectations on yield and quality, according to the July crop report made public today by the Nebraska board of agriculture. Both winter and spring wheat are adversely affected. The average condition of spring wheat, the report states, is reduced to 89 percent, which forecasts 12,141,000 bushels.

Winter wheat a few days before harvest had the appearance of a record breaking crop, but the latest returns indicate that there will be 25 percent less wheat than expected. The decrease is attributed to premature ripening, caused by a few days of high temperatures during the ripening period.

TRADE IN DYES,  
CHEMICALS AND  
POTASH BARREDBlanket License to Be  
Issued for Other  
Commodities.

By Associated Press Leased Wire

Washington, July 11.—Trade between the United States and Germany will be resumed immediately, Acting Secretary Polk of the state department announced today.

Mr. Polk said blanket licenses would be issued, but that dyes, chemicals and potash would be excepted. Control over trade in these commodities will be exercised by the reparation committee under the terms of the peace treaty. A formal announcement regarding resumption of trade relations was promised within 48 hours.

Secretary Polk made it clear that resumption of trade relations with Germany did not abrogate the trading with the enemy act nor was it to be taken as meaning that the state of war was at an end.

## ALL PLANS MADE.

By Associated Press Leased Wire

Washington, July 11.—All arrangements for removing restrictions on trading with Germany have been completed so far as the American government is concerned, Vance McCormick, chairman of the war trade board said today. Action by the supreme economic council, in session today at Paris in lifting the blockade alone is awaited, Mr. McCormick added.

Mr. McCormick who returned from Paris with President Wilson, said there would be virtually complete freedom of trade, subject to the limit of credits which Germany might be able to establish. Dyes and certain other commodities will be excepted, however, as under the terms of the peace treaty trade in these is to be controlled by the reparation commission.

Tribune Attorney  
Says Ford "Profit  
Sharing" Misnomer

By Associated Press Leased Wire

Mount Clemens, Mich., July 11.—Edsel B. Ford, president of the Ford Motor company, resumed his testimony this morning in the libel suit brought by his father, Henry Ford against the Chicago Daily Tribune. The elder Ford was in court, ready to follow him on the stand.

The examination was by Attorney Elliot G. Stevenson. The guarantee of \$5 a day minimum wage was put in effect on January 12, 1914, the witness testified, and the net profits that year were approximately \$30,000,000.

Mr. Stevenson, pursuing his theory that the wage was something that the employees amply earned, and should not be called "profit sharing" adduced that in 1916, production had more than doubled and net profits were approximately \$60,000,000. This doubling of profits, Mr. Stevenson pointed out, resulted in no change in the incomes of employees and hence he said, "the term profit sharing" was a misnomer.

Attorney Alfred Lucking objected to any further investigation into the "private affairs of the corporation."

On cross examination the witness said there was a surplus of labor in 1914, at the wage scale prevailing, notwithstanding which the \$5 minimum was put in effect.

Cut Profits; Cut Prices  
It was Henry Ford's policy to keep profits at \$25,000,000 a year, Edsel said, and to this end it was the custom to cut the price of cars each year. In 1916, however, it was deemed advisable to build blast furnaces and expand otherwise. The price was not cut that year, and the big profits resulted and are now being used as originally contemplated.

One year the cut was \$80 on the touring car model, with other models reduced proportionately, the witness said. Attorney Lucking pointed out that this was a voluntary relinquishment of \$64,000,000 of profits which might have been legitimately accepted. Attorney Stevenson challenged the statement.

AT LAST! DEPOT AVE.  
FOUNTAIN IS LOCATED

After much debating Dementtown is again to have a public watering trough. Superintendent of Streets George Gitt put a force of men to work on Seventh street west of Depot avenue this morning making connections with the sewer and water main for the installation of the trough. The former fountain was located on Depot avenue just east of the street car track and there was considerable objection to replacing it in this spot.

After long consideration it was decided to place the fountain west of Depot avenue on the south side of Seventh street. The new fountain will be in operation in a few days.

## DIXON WOMAN IS MEMBER STATE G. O. P. LADIES

**Mrs. Douglas Harvey on  
Women's Executive  
Committee.**

The announcement is made of the appointment by the Hon. Frank L. Smith, of Dwight, Ill., chairman of the Illinois Republican State Central Committee, of Mrs. Douglas Harvey, of Dixon, as a member of the Illinois Republican Women's Executive Committee. This committee is being formed in accordance with the plan of Chairman Will Hays of the Republican National Committee for the organization of the women of the Republican party all over the country. Mrs. Fletcher Doherty, of Chicago has been appointed chairman of the committee, and there will be a member from each congressional district throughout the state who will act as a member of the Executive Committee and as chairman of her own district.

The 13th Congressional District has the honor of claiming as its own the chairman of the National Republican Committee in Mrs. Modell McCormick, of Byron. Mrs. McCormick announces that the organization all over the country is well under way and that the Republican party will be very proud of the organization of the women within its ranks. The women will play a large part in the election of the president of the United States in 1920 as there are now, it is estimated, 15 million women voters in the United States, and both men and women in the last presidential election.

Illinois is being organized in accordance with the National plan and upon consultation with party leaders, women will be appointed to act as chairmen in every county under the leadership of the district chairman. This county chairman will work in the closest cooperation with the men county chairmen of the party and will do everything possible to assist in winning the vote of all the women in the county. The county chairman in turn will appoint chairmen of townships and it is hoped to have forty-five thousand active women workers in Illinois by fall. There never was a time in the history of the country when women needed to take an interest in the welfare of our public institutions as they do today. The intelligent interest of the home loving and patriotic American woman is the greatest antidote for Bolshevism that we can have.

Mrs. Harvey plans to attend the first meeting of the Illinois Women's Committee which will be held at the LaSalle Hotel in Chicago on July 15th when the women will come together from all over the state to discuss the plan for the organization and for the campaign to elect a republican president in 1920.

As to financial power, the report said in part:

"The packer has drawn to a marked degree upon the banks of the country for liquid funds. To assure himself loans ample to his purpose, the packer has secured affiliation through stock ownership, representation on directorates and in other ways, with numerous banks and trust companies. Mr. Armour, Mr. Swift, Mr. Morris and Mr. Wilson are directors in banks affiliated closely with those who are strong at the sources of credit in the United States."

After reviewing the interest of the packers in the leather, fertilizer, cotton seed oil, grain and breakfast food industries, the report said:

"The reason why the packers are seeking control of the substitutes for meat—the foods that compete with meat—is obvious. If the prices of substitutes for meat are brought under packer control, the consumer will have little to gain in turning to them for relief from excessive meat prices."

"Judging conservatively by trade estimates, the big five handle at least half of the poultry, eggs and cheese in the main channels of interstate commerce."

"Recently the big packers began dealing in various staple groceries and vegetables, such as rice, potatoes, beans,

and a sugar machinery corporation, and its minority stock in the United Fruit company.

"Some of Swift & Co's subsidiaries are growing tropical fruits in Hawaii, a subsidiary of Wilson & Co. Inc., has reached into the salmon fisheries of Alaska, and a Morris concern has shrimp taken in the waters of the Gulf of Mexico."

"In England, France, Italy, Holland and other European countries large meat distributing companies have been organized by the packers to sell the meats from their plants."

"The big five, the report said, have control of or interest in public utility corporations in Sioux City, Kansas City, South St. Paul, Portland, Ore., South San Francisco, South St. Joseph, Mo., Hill City, Minn., Fort Worth, Tex. and Chicago."

"Recently the big packers began dealing in various staple groceries and vegetables, such as rice, potatoes, beans,

and coffee, and increased their sales at such a rate that in certain lines they have become factors of great moment."

Referring to the packers' activities in America, the report said that from establishment of a single plant in Argentina in 1907 by Swift & Co., the American packers, Swift, Armour, Morris and Wilson, had developed by 1917 until for that year they exported 57.4 per cent of all exports of frozen and chilled beef quarters from Argentina and Uruguay.

The American packers control or are associated with 17 meat companies or holding companies in South America according to their reports to the commission.

"This report is put out now as a part of the propaganda in which the trade commission, with others, is engaged, seeking to subject the packing industry and other lines of business to the arbitrary control of subordinate government officials through a license system."

Make 2 Percent Profit.

"No one disputes that out of the total receipts of the packers, derived from the products of animals, about 85 percent is paid out for live animals themselves. About 13 percent is paid out for wages, transportation and other such expenses. About 2 percent of this turn over is earned by the packer as net profit. And no one disputes that this amount is but a small fraction of a cent per pound and that it is negligible as not in any event to affect the price which the consumer pays for meats."

"It is to be regretted that in these days, when the public feels keenly the pressure of high prices, a government body does not give out facts respecting prices and profits," said Mr. Swift.

"This has never been done fairly by the federal trade commission as regards the packing industry, although the commission has constantly had the most complete information in its possession."

Report Is Erroneous.

## Clemency Board to Review Naval Cases

By Associated Press Leased Wire  
Washington, D. C., July 11.—A clemency board consisting of Secretary Daniels, Read Admiral George R. Clark, Judge Advocate General and Commander Frank B. Freyer, assistant judge advocate general, now is engaged in reviewing court martial sentences imposed during the war. Many punishments involving prison terms or fines are being mitigated or set aside by the reviewing board. The board found in many cases that punishment, while well deserved in time of war, might be regarded as too severe now that hostilities have ceased.

Secretary Daniels announced today that not a man was executed as the result of naval court martial during the war. In several cases, he said, courts martial recommended the death penalty, but in each the reviewing board commuted the sentence to imprisonment.

## TAXI MAN SEES SELF BEING TAXED OUT OF BUSINESS BY MEASURE

**Earl R. Watts Says Pro-  
posed City Law Will  
Kill Him Off.**

Earl R. Watts, for many years proprietor of a Dixon taxi-cab service, sees ruin facing him if the proposed city ordinance, levying a tax of from \$3 up on every automobile in the taxi service, is passed, and he forecasts the necessity of his quitting business with the enactment and enforcement of the measure. In a communication to The Telegraph he says:

"Editor Telegraph: Just a few kind words to the people of Dixon on this new taxi ordinance. A few years ago I started in the taxi business here, with an ambition of giving Dixon the best taxi service it had ever had. I invested \$10,000 or \$12,000, for at that time the rigs in service in this city were hardly safe to ride in, and any bum that stopped over in town was welcome to drive a week for his board. The highest wages were \$9 per week and the taxi fares were more than we get now. Since then I have seen eight or ten different men start in the business and fail.

"Now I went through the war without competition, and I hauled passengers at the same price, although everything doubled in cost to me; wages doubled, tires doubled and everything else is twice as high as it was. But I paid the price and never murmured; and I don't think there is a man in the state that could get a better lot of drivers than I have—drivers who have the interest of the people at heart.

"And I have been no slacker. When asked me to take bonds, stamps, contribute to the Red Cross and other war activities I tried earnestly to do my bit. But now, when the war is all over, the government comes along with an annual tax of from \$15 to \$20 on each car, in addition to all the other high taxes.

"And now the City comes in, as it never had before, with a large tax. I think there are people in this town who are broad-minded enough to know we cannot exist on the prices they are used to paying, with everything so high and taxes being piled in at every turn. Advocates of taxes on taxis will

compare Dixon with Sterling, Freeport and other cities in which the depots are right in the town, and not like they are in Dixon—a mile or two away. Some time I have eight or ten cars, the drivers of which are being paid good wages, waiting for trains off which I get but one or two passengers. But let a train come in and passengers find no taxis at the depot—then hear them rave.

"I like to be accommodating, but certainly do not wish to be imposed upon. If I did not have my own garage, with storage room, tires, accessories, etc. for sale, do you suppose I could get by? No. I would have gone the road of everyone else who has tried the taxi business in Dixon.

"Now they want to impose a tax on cars that I keep in reserve for stormy weather, when it takes every bit of equipment I can get together to keep cars in repair and still take care of the increased demands from the public. It strikes me that instead of having to pay for the idle cars I should be paid

for the time they are not working.

"It is just like this with me: if this ordinance goes into effect I am through while my credit is good and while I have the good will of the people, whom I have honestly tried to serve and to please. In the years I have been in business I have maintained the highest possible standard in cars and drivers, and I am proud to say that I have never been arrested, nor has any of my cars been the cause of any warrant being issued.

"So if I have to quit the business I take this opportunity of thanking all for the fine patronage that has been given me in the past years. Respectfully. (Signed)

EARL R. WATTS.

## ROCK RIVER OPEN TO CLAMMERS ON JULY 16

City Clerk Blake C. Grover yesterday afternoon received a communication from the office of Ralph Bradford, chief game and fish warden of the state department of agriculture at Springfield, which at this time is vitally important to many in this vicinity. The state warden advises City Clerk Grover that clamming in Rock River will be permissible beginning July 16. In this connection, the warden also advises that copies of the revised game and fish laws will be forwarded as soon as received from the printer.

Summerall, of the United States, forming the commission to investigate recent incidents at Fiume. The commission will leave Paris tomorrow for the Adriatic.

Afterwards the council heard Captain Andre Tardieu, of France, on the question of the Austrian and Hungarian frontiers and concluded its meeting with a discussion of the aerial convention. The council decided to adjourn further discussion of the convention.

### THE HALF HOLIDAY.

Dixon merchants have a movement on  
foot for the closing of all retail stores  
each Thursday afternoon during the re-  
maining weeks of July and August. All  
retail merchants in Dixon are invited  
to be present tonight at the city hall at  
7:30 o'clock to discuss this proposition.

The Telegraph believes the movement  
to be a good one, and hopes that it will  
be unanimously adopted in Dixon. We  
do not believe that any merchant will  
lose a nickel's worth of business and it  
will certainly be a boon to clerks and  
employers alike. A half holiday in the  
middle of the week during the hot sum-  
mer months makes the work of the re-  
maining days of the week much eas-  
ier; makes brighter, "peppier," more  
contented workers, and so far as we can  
see, it discommods no one to any great  
extent. The public can easily spare one  
half day out of the twelve shopping half  
days of the week, when it means so  
much to the workers in the stores.

The movement is along progressive  
lines. Eastern cities, towns and vil-  
lages have followed the practice for  
years. The big cities close nearly all  
work down at noon each Saturday dur-  
ing the hot months, but as Saturday is  
the big business day in the country, it  
is proper that some other day be  
chosen.

Every closing movement of any na-  
ture has had opposition. Storekeepers  
used to think they had to keep open  
every night in the week, but none of

them would go back to that unhealthy,  
unbusiness-like system now. Shorter  
hours make for greater efficiency dur-  
ing the working hours of the week that  
are left. Many factories have found  
that by cutting a couple of hours off  
the working day, the workers will pro-  
duce more work in the short day than  
they did in the longer one. We believe  
that Dixon and community will be glad  
to see a general half holiday in Dixon  
once a week during the hot months.

### THE PIRATE UZ-21.

The armed German submarine de-  
stroyer UZ-21, escaped from the Kiel  
canal a month ago. It now comes to  
port in Gothenburg, Sweden, then si-  
lently slips away again. Its captain in-  
timated that he set out for South Amer-  
ica, but the crew had to come to port  
to discuss the project.

Captain and crew are setting out for  
kingdom-come. Roving the seas with a  
stolen vessel is an act that will easily  
end in piracy in the very near future.  
The number of American and English  
gobs itching for real target practice is  
legion.

### Safety First Plan Worked Out Well

By Associated Press Leased Wire  
Washington, D. C., July 11.—Results  
of the railroad administration's safety  
campaign, declared by Director Gen-  
eral Hines to be "most satisfactory,"  
were made public today in statistics  
showing that in the first 3 months of  
this year 569 fewer persons were killed  
in accidents than in the same period of  
1918. The total number of accidents  
decreased 9,709.

## PERPETUATE U. S. TRADITIONS, GOV. LOWDEN ASSERTS

### Solution of Post-War Problem Depends on Those Ideals.

By Associated Press Leased Wire  
Atlantic City, N. J., July 11.—That  
America "must recur again and again  
to the fundamental truths upon which  
our government was founded" if she is to  
solve post war problems was the key  
note of an address delivered here by  
Gov. Lowden of Illinois before the Vic-  
tory and Peace Meeting of the grand  
lodge of the Benevolent and Protective  
of Elks.

The Illinois executive declared the  
constitution worthy of perpetuation be-  
cause of its intrinsic worth irrespective  
of the personality of its framers and de-  
nounced roundly any philosophy of gov-  
ernment which seeks to supersede it.  
He drew a parallel between bolshevism  
in Russia and German militarism and  
linked the I. W. W., socialism and the  
"one big union" with the sovietic phi-  
losophy of Lenin and Trotsky.

Save Individual Rights.  
"The framers of our constitution not  
only set up a government of the peo-  
ple, but in the same instrument limit-

ed the power of that government," said  
Gov. Lowden. "They recognized that  
there were certain rights of the indi-  
vidual so precious that they should be  
forever beyond the power of even the  
greatest majority. Among these was  
the freedom of religious worship, the  
freedom of speech and of the press.  
They also provided that no person  
should "be deprived of life, liberty or  
property without due process of the  
law," and that property should not be  
taken for even public use without just  
compensation. They knew that no gov-  
ernment, whatever its name, or its  
form, could endure unless that govern-  
ment secured the fruit of their toil to  
all its citizens, whether they were of  
the minority or the majority. They  
knew that the arbitrary exercise of  
power, whether by one or by many, was  
equally obnoxious to mankind.

Nationalism Is Old.  
"There are those who speak of the  
nationalization of wealth as something  
new. Why, it is the oldest thing in the  
history of the world. The savage tribes  
in every land and clime, have been  
Communists. Our own Indian tribes  
enjoyed their lands and almost every-  
thing else in common. When a famine  
came, they starved in common.

"Without the incentive of private  
property, civilization would languish  
and die. It may be that men ought to  
be sufficiently altruistic to labor unceas-  
ingly for the general good, but they are  
not generally so.

"Our concern should be not to de-

stroy private property, but to distribute  
it more widely and more equitably.

New Creed Arises.  
"A new political creed has arisen;  
not the rights of all men, but the rights  
of a majority are the basis of the new.  
In Russia where they practice the phi-  
losophy most consistently, they not only  
give this wealth to the state, but they  
kill its owners.

"Justice, righteousness, gentleness  
are words as foreign to the language of  
the Bolsheviks as to the language of  
the Militarists. Stripped of outward  
forms, the representatives of the Ger-  
man Empire could meet Lenin and  
Trotsky at Brest-Litovsk upon equal  
terms.

"This is the old struggle in a differ-  
ent form of ambitious men to rule the  
world.

"But our most dangerous enemy is  
not some foreign land. He is within  
our gates. He bears different names.  
Sometimes it is the Industrial Workers  
of the World, sometimes the Soviet,  
sometimes the 'One great union,' and  
sometimes Socialism. For years we  
looked upon the Socialist party as vi-  
sionary but not destructive.

## German People May Be Asked to Give Approval of Peace

By Associated Press Leased Wire  
Paris, July 11.—Ratification of the  
treaty of peace by the German national  
assembly at Weimar, may be held not  
to be sufficient, according to the Petit  
Parisien. The new German constitu-  
tion provides that in cases where ter-  
ritory is ceded the ratification of treat-  
ies by states which lose territory is nec-  
essary in addition to approval by the  
central government. Consequently in-  
dependent action by Bavaria, for the  
Sarre basin and Prussia for territory re-  
stored to Poland may be required. It  
may be said the Newspaper says that  
the new constitution had been only par-  
tially accepted when the treaty was rat-  
ified but, it adds:

"It is imperative to avoid giving Ger-  
man legal experts a pretext for pro-  
claiming the nullity of the treaty."

## SANDRA THE JEALOUS

By JANE PHELPS.

### CHAPTER XVII SANDRA ASSERTS HER RIGHTS

Who could the original of all these pictures be? I had deciphered a name on the back of one of those I found in the bureau drawer: "Leola." What an odd name! Did Everett always know women with odd names? I can't explain the emotion that impelled me to say over and over:

"Leola and Sandra, Sandra and Leola."

Then it came to me. This Leola must have been Everett's wife, the first Mrs. Graham. But why had he not taken her pictures down. I would not stand. I would ask him who she was, and if I was, and if I was right, every single picture of her should be banished. It was had enough to be the second Mrs. Graham without having to be reminded of it all the time by pictures of my predecessor.

I was sitting in the library when Everett came in. I had tried to read, and also to practice a little, but could do neither. All I could think of was that lovely pictured face. At first I thought I would ask Hetty. But he had warned me not to question the servants, so I made up my mind to wait up and ask him when he came in.

"What are you sitting up for?" he asked. I was so absorbed in my thoughts, I had not heard him. "I thought I told you to go to bed."

"Exactly as he might have done to some ten year old child who had displeased him."

"I couldn't get to sleep when you were out."

"Why?"

"I guess because I am lonely. The house is so quiet. I never have been alone, you know."

"Afraid of the dark?" The sneer was unmistakable.

by the firm chin, as well as beauty. "She wouldn't be afraid of him," I said to myself as I gazed. "She'd ask all the questions she wanted to, even if she did make him angry."

I heard someone in the hall and quickly tried to put the pictures away. But not quite quickly enough. Hetty came in before I had them hidden.

"Who is this, Hetty?" I asked, acting on impulse.

"Don't you know?" Her surprise was evident.

"No, or I shouldn't have asked you," I said. I wished I had not spoken.

"Why, that's Mr. Graham's other wife."

"So I had been right in my surprise! But how terrible is Everett to forget to put all her pictures away. What ever would people think to see that big old portrait over the mantle in the drawing room and that one in the library? I would have them taken down immediately."

I called Richard and gave the order. "Where shall I put them, Mrs. Graham?" he asked.

"Isn't there an attic in the house?"

LACK OF SELLING  
PRESSURE CAUSES  
BOOST FOR CORN

By Associated Press Leased Wire

Chicago, July 11.—Notable absence of selling pressure led to new up turns today in the corn market. The few offerings available were quickly absorbed, and then the market jumped as much as a cent at a time without a trade. Knowledge that hogs were continuing to command the highest prices ever known helped somewhat to strengthen corn. Opening quotations, which ranged from 1½¢ decline to ½¢ advance, with Sept. 1.91½ to 1.93 and Dec. 1.57½ to 1.58½, were followed by sharp gains all around.

Seaboard buying gave independent firmness to oats. After opening ½¢ to ¾¢ up, including Sept. 75½ to 76, the market reacted a little, and then went higher than before.

Provisions were dull and irregular. Fresh advances in the hog market failed to stimulate demand.

Later, the market developed weakness on account of profit taking by holders and in consequence of bearish crop reports add current opinions that corn was too near the basic price of wheat. The close was unsettled, 2½¢ net lower to an advance of 2¢, with Sept. 1.92½ to 1.93½ and Dec. 1.59½ to 1.60.

Shippings Lead All  
Stocks in Increase

New York, July 11.—Shippings continued to lead the active dealings of the morning on the stock exchange, American International, Atlantic Gulf, Marine common and Pacific Mail being the foremost features at gains of 2 to 3 points. Coppers, notably Utah, also displayed further strength on the higher price quoted for the metal; and equipments, including several of the inactive issues, were 1 to 3 points higher. Low priced rails augmented early gains, but investment transportations lagged. Some of the food shares and American Telephone and U. S. Rubber reacted 1 to 2½ points. Initial rates for call money ranged from 7 to 7½ per cent. The closing was strong.
